you may watch and download media on one compatible device at a time for 9 99 per month and you will be able to see videos in hd through this plan the base subscription includes limitless ad free tv programs movies and mobile games additionally keep in mind that downloading content is limited to a single device such as a phone tablet laptop etc netflix plans in india are available in four tiers each offering slightly different benefits than the other that said the catalogue of content remains unchanged even the most basic netflix plan offers the same original tv shows and movies as the premium plan if you are wondering which netflix plan you should subscribe to we have listed down all the plans along with their benefits on that note let s check out the netflix subscription plans in 2024 that are available in india with this free netflix account and password you can watch any shows and movies up to 4 screens all at the same time so you can share your netflix account with your friends family or anyone you like but do not share this with more than 3 people for enjoy watching your favorite shows without being interrupted in my honest opinion netflix basic is worth it only if you are lazy to coordinate with other people and don t mind paying rm28 per month rm11 more than netflix mobile plan which is rm17 per month
